

April 8, 2026

Dear Valued Customers,

We would like to inform you of an upcoming price adjustment for all FRP product lines, including PVC trims, within Stabilit America and its divisions.

Due to continued increases in raw material costs and ongoing market pressures, we will implement a 5% price increase across all FRP products and PVC trims.

This increase will be effective on all shipments on or after May 11, 2026.

We remain committed to working closely with our suppliers to manage costs and minimize the impact to our customers, while ensuring consistent product availability and service.

We greatly value your partnership and appreciate your understanding.

If you have any questions, please contact your sales representative.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gustavo Orta", is positioned above the printed name.

Gustavo Orta
Vice President of Sales
Stabilit America, Inc.
