

Closed Angle Corner Bead Submittal Sheet

STOCK NO.	LENGTH	PCS. PER BOX
CA4008	8'	50
CA4009	9'	50
CA4010	10'	50

Description: Achieve the soft, slightly rounded edge of a standard Trim-Tex Corner Bead with a tighter 81-degree angle that conquers uneven framing, and a unique hole pattern that saves you mud and time. With Closed Angle Corner Bead's more acute angle comes an increased rigidity, giving many installers the feeling of using a metal corner bead — but with all the durability of Trim-Tex's top-quality vinyl materials.

Advantages: Made from rust proof, dent resistant PVC to reduce jobsite and handling damage. Does not contain cellulose, a potential food source for mold.

Limitations: Product is designed for interior use.

Applicable Standards: Rigid PVC products made by Trim-Tex meet ASTM specifications D3678, D1784, C1047 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self-extinguishing when the source of flame or heat is removed.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. Detailed installation instructions can be found at www.trim-tex.com.

Finishing: Always use a high quality paint.

Accessories: 847 Spray Adhesive and Safety Products distributed by Trim-Tex.
