

THE FASTEST WAY TO FIRESTOP

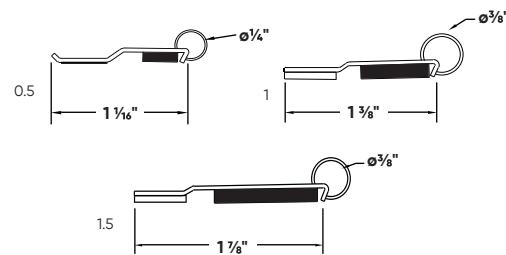

- Fire Gasket is the fastest firestopping solution for head-of-wall and bottom-wall joints on the market – it's typically installed five times faster than traditional sealants and sprays
- Fire Gasket is installed pre-drywall; simply peel off the backing from the attached adhesive foam tape, press it against the framing member and walk away!
- Available in three sizes, providing 0.5", 1" & 1.5" of unencumbered movement, respectively

66 You can literally get your lowest man, your novice carpenter, to install this product with real ease. You make sure it's tight to the floor, stick it to the wall and you're done. It's real simple. **99**

- Ryan Roberts, Project Manager
