

Fire Rated O93V Expansion

Building out fire-rated control joints on wall assemblies using traditional methods is costly and time consuming. Our fire rated O93X-V expansion bead revolutionizes this process. Integrated intumescent tape rated for 1 and 2 hours, and the flexible bead accommodates up to $\frac{3}{8}$ " in building movement.

Installation Guide

Installation Video

Before Installation:

Snap chalk lines as a guide. Measure, cut and dry fit the bead.

Step 1:

Coat both the bead and drywall with Trim-Tex 847 Spray Adhesive.

Step 2:

Press the bead in place, applying pressure to the mud legs.

Step 3:

Staple every 6"-8" using $\frac{1}{2}$ " staples.

Step 4:

Finish with drywall compound.

Step 5:

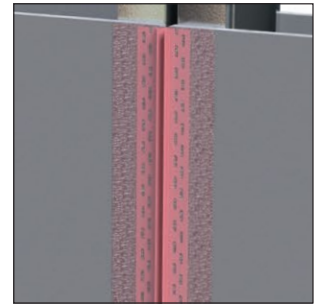

Remove tear-off strips prior to sanding.
