

TAKE CONTROL OF YOUR FIRE RATED CONTROL JOINTS

- Trim-Tex's popular Fire Rated 093X-V Expansion bead integrates multiple code compliance needs (firestopping and control-joint requirements for wall assemblies) into a single, easy-to-use solution with no added backing materials
- Deep rigid "V" is joined at the bottom with a flexible connection allowing a full 3/8" of controlled movement, and is protected from mud by Trim-Tex's signature tear-off strips
- Inspectors will be able to spot the Fire Rated 093X-V Expansion by its pink color, and unlike fire sealants, instantly know it has been outfitted with the proper dosage of firestopping materials every time
