To Our Canadian Customers

Subject: CertainTeed M2Tech Gypsum Board

This is to certify that M2Tech Gypsum Board, formerly ProRoc Moisture and Mould Resistant Gypsum Board with M2Tech, meets the requirements of a Water-Resistant Backing Board as defined in ASTM C1396, Section 7. It is acceptable under the Canadian 2010 NBCC to use M2Tech Gypsum Boards as tub and shower enclosures behind tile.

M2Tech Gypsum Boards are not recommended for areas which will be continuously wet or subjected to high humidity such as saunas, steam rooms or gang showers.

Please contact the Marketing Technical Services Department at 1-800-233-8990 if you require additional information.
