

## Rigid Jumbo Closed Angle Corner Bead Submittal Sheet

STOCK NO.	LENGTH	PCS. PER BOX
CA10RJ	10'	45

**Description:** This bead is an unevenly framed corner's biggest enemy – its tight, 81-degree angle and extra-wide mud legs can level out even the most warped drywall corners. Try Rigid Jumbo Closed Angle as a super-sized alternative to metal corner bead; its more acute angle means the mud legs won't buckle or flare out upon installation the way some beginners find 90-degree vinyl beads can.

**Advantages:** Made from rust proof, dent resistant PVC to reduce jobsite and handling damage. Does not contain cellulose, a potential food source for mold.

**Limitations:** Product is designed for interior use.

**Applicable Standards:** Rigid PVC products made by Trim-Tex meet ASTM specifications D3678, D1784, C1047 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84.

**Surface Characteristics:** Trim-Tex products are made from PVC. PVC does not support combustion and is self-extinguishing when the source of flame or heat is removed.

**Installation:** Trim-Tex recommends following established acceptable industry standard installation methods. Detailed installation instructions can be found at [www.trim-tex.com](http://www.trim-tex.com).

**Finishing:** Always use a high quality paint.

**Accessories:** 847 Spray Adhesive and Safety Products distributed by Trim-Tex.
